

## ACCELERATE IT SUCCESS WITH FEDTEC'S COOPERATIVE CONTRACT

FedTec is proud to offer a 5-year cooperative contract for On-Call IT Project Management Services, providing public agencies across the country with streamlined access to expert IT solutions. Available through the Axia Cooperative purchasing program, this contract enables entities to efficiently procure IT project management and professional services without the complexity of a traditional bidding process.

### Who Do We Serve

Eligible public agencies have access, including:

- States, cities, counties, and towns
- School districts, colleges, and universities
- Public utilities and special districts
- Non-profits and other eligible entities

### How We Can Help

Comprehensive IT project management and professional services, including:

- Cybersecurity: Risk assessments, compliance, and security operations
- Application Development: Custom software, modernization, and support
- Infrastructure: Cloud solutions, system integration, and IT architecture
- Requirements & Change Management: Process optimization and stakeholder coordination

### Why FedTec

Redefining The Technology of Today for Agencies of Tomorrow

With decades of experience supporting federal, state, and local agencies, FedTec delivers proven IT solutions that drive efficiency, security, and innovation. Our team specializes in tailored project management services to help agencies achieve mission success while simplifying procurement.
